CABN | Manifesto

We are developing a manifesto. We might have done some of these things before; we might not have done some of these things before.

<u>These are terms to be ordered in areas of importance + to perhaps suggest more?</u>

These can be our shared values, themes and aspirations for a future CABN:

- CABN orientates its activities towards communities and small towns within a largely rural landscape of rivers, hills and the sea and the digital landscape of spaces and networks.
- CABN is a peer led network of creative individuals, organisations and communities in the Scottish Borders.
- CABN nurtures, advocates for and supports creative workers to thrive & realise their potential in practical and proactive ways.
- CABN is a channel, an activator and a connector for creative sector workers in the Scottish Borders.
- CABN is a point of contact for creative workers, supporting local projects and organisations.

CABN | Manifesto

- CABN supports traditional and contemporary creative sector workers.
- CABN recognises, welcomes and embraces all creative workers from marginalised backgrounds.
- CABN will follow and advocate for fair working practices for creative workers.
- CABN builds productive partnerships locally, nationally and links to creative industries and marketplaces while contributing to a creative eco-system in the South of Scotland and beyond.
- CABN recognises the arts as a healthy source of dreams and dangerous ideas, that challenges norms, that supports debate and brings about change.
- CABN puts the climate emergency in all levels of its decision making, promoting sustainable livelihoods and practice that consider the wellbeing of people and planet.
